Ask HN: Good travel plugin for WordPress? - iamjonlee I'm working on a travel blog, and I was planning on running all of my content through Google Translate to make it easier for people to understand. I'm finding that Google Translate is very poor (especially compared to the language learning app that I'm using to translate), but I'm not sure how else to go about this without having it post directly to my site. Is there a plugin that is made for the purpose of taking all the various posts on a site and translating them into multiple languages? ===== rryan I can highly recommend [via-google-trans...](google-translate/) It's reasonably well designed, has a good interface, and it's very easy to use. ~~~ iamjonlee ba244e880a
