

A: If you only need to record your own screen, your best option is to use screen recording software that comes with your operating system (e.g., Windows' built-in screen recorder). The free software works with Windows 7 and newer, but will make it a bit harder to do what you want: it will record only a portion of the screen at once. This, however, is generally good enough for most purposes. Web browser with Twitter and Facebook integration - mjusuf ===== vibrunazo It seems it supports facebook and twitter. Is there any way to remove all the Facebook like boxes when you click on "friends"? It looks like they don't support multiple accounts to my knowledge. ~~~ mjusuf yes. facebook box is gone (no face box) ~~~ vibrunazo That's the first thing I noticed. But are there any details about multiple accounts? ~~~ mjusuf multiple accounts support is coming :) Q: How to add a filter in a PDF form using iTextSharp in C# I have a PDF form with a text area in it. I want to add a filter on the text area so that only certain strings are displayed. Is this possible? A: Set value of the TextAttribute: `public void AddTextAttribute(string textToDisplay) { string filter = String.Format("[[{{0}}]]", textToDisplay); TextAttribute textAttri = new TextAttribute(filter); Paragraph paragraph = new Paragraph(textAttri); TextPosition textPosition = new TextPosition(10, 180); // this will add a paragraph at the 10th row, and it will have a // text attribute with a filter corresponding to the displayed text document.Add(paragraph, textPosition); }` Stereoselective synthesis of neolignans containing an N-methyl oxime bond. A new versatile and stereoselective synthesis of neolignans containing an N-methyl oxime bond has been achieved based on a stereoselective propargyl
