Click Here To Download I am trying to read the contents of a.html file. I am able to open the file but I am not able to get the contents. Please help me. here is my code: `import java.io.BufferedReader; import java.io.File; import java.io.FileInputStream; import java.io.FileNotFoundException; import java.io.FileReader; import java.io.IOException; /** * * @author */ public class test { public static void main(String[] args) { try { BufferedReader br = new BufferedReader(new FileReader("C:\\Users\\manik\\Desktop\\cars_jose\\Cars 2 Movie Download In Hindi 72041.html")); String line = ""; while ((line = br.readLine()) != null) { System.out.println(line); } br.close(); } catch (FileNotFoundException fnfe) { System.err.println(fnfe.getMessage()); } catch (IOException ioe) { System.err.println(ioe.getMessage()); } } } A: as a curiosity, this line : FileReader fileReader = new FileReader("C:\\Users\\manik\\Desktop\\cars_jose\\Cars 2 Movie Download In Hindi 72041.html"); should have the following : FileReader fileReader = new FileReader("C:\\Users\\manik\\Desktop\\cars_jose\\Cars 2 Movie Download In Hindi 72041.html"); remove the first \\ and if your using windows make sure you take the FileReader out of the try/catch 2d92ce491b`
