

The following are the names of the parents: Adeline, Andi, Amelia, Alice, Alison, Anna, Ashley, Bella, Caroline, Cathrine, Daisy, Emma, Eva, Georgia, Heather, Hillary, Holly, Ingrid, Kate, Julie, Louise, Lucy, Marie, Megan, Meredith, Mary, Patricia, Rachel, Ruth, Sadie, Sandra, Sharon, Tina, Victoria, Wendy, Whitney, and Winnie. Roster The following is a list of dogs that have been adopted from Heathers Foster Dogs. IMPORTANT: The shelter staff is only able to provide basic information regarding dogs found during their adoption process. Although many dogs have a microchip implanted under their skin, it does not necessarily guarantee ownership. Books Heathers Foster Dogs publishes books to educate the public about dogs and breed-specific issues. Some of their books are: Breaking the Roster: Preventing Dog Overpopulation in North America, Canada, and Mexico (Heathers Foster Dogs, Canada) Book of Troubles (Heathers Foster Dogs, Canada) Before You Take Your Dog Home (Heathers Foster Dogs, Canada) Owner's Manual for a Puppy (Heathers Foster Dogs, Canada) The Secrets of Labrador Retrievers (Heathers Foster Dogs, Canada) References External links Category:Cat rescue organizationsQ: Double-bracket notation for comma in JavaScript Can someone explain to me, when does one need to use double brackets, if one can use only one? I don't get the point of the comma? class Person { constructor(name) { this.name = name; } } let person = new Person("Ted"); class Group { let group = new Group("Brassicas"); (group, person) => { console.log(group.name, person.name); }
