It is important to note that the official site of the Spanish League Cup, Liga Nacional de Fútbol Sala, is from the Spanish league of football itself, so that the site can not be updated. The day when the winners are named, and the day when the results are published will be displayed on the game map. The players of the different games are represented by a list of the players and a logo of the club team. The only difference is that in the UEFA cup logo, and in addition to the name of the club in the logo, the name of the cup is also displayed. As soon as the players are selected, they are placed on the team. As in the initial game, the best players are selected from the best teams in the initial league. If there are no players from a team that can fulfill the requirements, the best players from other teams are selected. If the player cannot fulfill the requirements, a player with the lowest rating will be selected, but if the ratings are the same, then it will be random. If a player from the club team is selected as the goalkeeper, and the goalkeeper of the opposite team to the goalkeeper, the game will be started from the center. On the other hand, if the game is started from one of the corner, then the game will be started on the opposite side. And if a player that was a manager is selected as the goalkeeper, then the game will be started as the fourth striker. If the game is selected, the goalkeeper starts the game, then the striker, the midfielder, and the goalkeeper starts. And if the player is a defender or defender midfielder, then the defender starts, and the striker, midfielder, and defender midfielder starts. And if the player is a striker, then the striker, midfielder, and the defender starts. And if the player is a goalkeeper, then the goalkeeper, striker, midfielder, and the defender starts. After the
