VisionTouch has developed a series of x.vx infrared touch panel displays that include : VisionTouch's fixed-mount Infrared Fixed Panel (IFP) Touch Displays VisionTouch's mobile 4-way Infrared Touch Displays with the SurePoint Solution line of Flat Panels VisionTouch's Touch Interface Module and Systems These displays are intended for industrial point-of-sale or other kiosk application in which the display is free standing. As with other VisionTouch fixed-mount infrared displays, an infrared light sensor is located near the display surface. The VisionTouch 4-way Infrared displays have a combined resolution of 768 × 480 pixels. Unlike the VisionTouch display, this 4-way infrared panel has no active-matrix backlight, and is powered by 3 voltage.
