Everything is very simple and clear, i have used it for few days in my daily practice and it provides everything i need.... Very Quick Help and Explanation.... Only issue is it doesn't have PDO support. It is a very basic application. 3 out of 5 stars 4 Not good for SQLite databases 03/27/2016 - by Miguel Rodriguez I wanted to use this application because I was not having any luck finding a really good application for sqlite databases. It's a very basic application. It does not support PDO, so if you want to connect to your database you have to import all your sql code in your application. I tried to get help, but the customer support was not really helpful. 1 out of 5 stars 3 Developer of the week! 01/16/2016 - by Gaurav Gupta How to describe it...!!!.....
